

# Ram It Down

Judas Priest

Raise the sights, the city lights are calling  
We're hot tonight, the time is right, there's nitro in the air  
In the street is where we'll meet, we're warning  
On the beat, we won't retreat, beware

Thousand of cars and a million guitars  
Screaming with power in the air  
We've found the place where the decibels race  
This army of rock will be there

To ram it down, ram it down  
Straight through the heart of this town  
Ram it down, ram it down  
Razing the place to the ground  
Ram it down

Bodies revvin' in leather heaven in wonder  
Lights are dimmin' and heads are swimmin' as thunder hits the stage  
Hell breaks loose, turn on the juice get stronger  
We metal maniacs begin to rave

Thousand of cars and a million guitars  
Screaming with power in the air  
We've found the place where the decibels race  
This army of rock will be there

To ram it down, ram it down  
Straight through the heart of this town  
Ram it down, ram it down  
Razing the place to the ground  
Ram it down

Shout it out, we're all together now  
Shout it out, we join as one, one

Thousand of cars and a million guitars  
Screaming with power in the air  
We've found the place where the decibels race  
This army of rock will be there

To ram it down, ram it down  
Straight through the heart of this town  
Ram it down, ram it down  
Razing the place to the ground  
Ram it down
