

Look around  
They're moving in  
Hold your ground  
When they begin

We can do it  
We can do it and if they wanna they can try  
But they'll never get near  
Then they can get out of here

Gonna keep on driving  
Never stop

United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all

So keep it up  
Don't give in  
Make a stand  
We're gonna win

We can do it  
We can do it and if they wanna they can try  
But they'll never get near  
Then they can get out of here

Gonna keep on driving  
Never stop

United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all

So keep it up

United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all

United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all

United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all
