You've Got Another Thing Comin'

Judas Priest

One life Im gonna live it up
Im takin flight I said Ill never get enough
Stand tall Im young and kinda proud
Im on top as long as the musics loud

If you think Ill sit around as the world goes by Youre thinkin like a fool cause its a case of do or die Out there is a fortune waitin to be had You think Ill let it go youre mad Youve got another thing comin

Thats right heres where the talkin ends
Well listen this night therell be some action spent
Drive hard Im callin all the shots
I got an ace card comin down on the rocks

If you think Ill sit around while you chip away my brain Listen I aint foolin and youd better think again Out there is a fortune waitin to be had You think Ill let it go youre mad You got another thing comin

In this world were livin in we have our share of sorrow Answer now is dont give in aim for a new tomorrow

Oh so hot no time to take a rest yeah Act tough aint room for second best Real strong got me some security Hey Im a big smash Im goin for infinity yeah

If you think Ill sit around as the world goes by Youre thinkin like a fool cause its a case of do or die Out there is a fortune waitin to be had You think Ill let it go youre mad Youve got another thing comin
