Lyrics and music by jude christodal

Red room
Bedroom
Clean sheets
Dark night
Star light
Heat...
First kiss
Near-miss
Holding breath
Her tongue
So young
Dead

- I know this is wrong
- I have been silent for too long
- I know this is wrong
- I have been silent for too long

Mommy Sorry Had no choice Daddy At me Hear my voice

And I know this wrong
I have been silent for too long

I know this is wrong

I have been silent for too long

Love has so many faces
I don't know what they all mean
They take me many places
But not all of them are clean

Day now
I vow
Never more
I will
Kill
This is war
This is war
This is war

And I know this wrong
I have been silent for too long
I know this is wrong
I have been silent for too long
