

## Ever True

Juice Newton

You were always so easy living  
So easy to love  
And who?  
Who could have seen it coming?  
Things that would happen to us  
So I must lose  
And I'm losing you

But you know  
I'll always be true  
My heart's always right here with you  
Though you have changed  
I will remain  
Ever true

Now me  
I never was an angel  
But oh how I have flown  
And love  
It can be so hard to handle  
So I will stand here alone  
I must be strong  
Now that you're gone

But you know  
I'll always be true  
My heart's always right here with you  
Though you have changed  
I will remain  
Ever true

Love has been kind  
From time to time  
This time I know I can win  
Now it begins to trying again

But you know  
I'll always be true  
My heart's always right here with you  
Though you have changed  
I will remain  
Ever true

Though you have changed  
I still remain  
Ever true  
Though you have changed  
I will remain  
Ever true
