

# Gonna Find You

Juice Newton

Baby, I've got some news for you  
Sometimes dreams really can come true  
Well, you've closed the door  
'Cause your heart's been broken  
But I got the key that could swing it wide open

Sitting all alone in a stone cold house  
There ain't no way you could keep love out

You can turn off the lights  
You can lock all the windows  
You can pretend you're not at home  
And turn off the phone  
So there's no way to get through  
Turn the radio down, down, down  
You can even leave town  
But it really doesn't matter what you do  
'Cause my love's gonna find you

You were sneaking around like a fugitive  
It ain't no big secret - I know where you live  
Baby, this ain't no James Dean movie  
When the lights go on  
You're gonna give your heart to me

Don't try to say you don't need no one  
Love's the only thing that you can't outrun

You can turn off the lights  
You can lock all the windows  
You can pretend you're not at home  
And turn off the phone  
So there's no way to get through  
Turn the radio down, down, down  
You can even leave town  
But it really doesn't matter what you do  
'Cause my love's gonna find you

Sitting all alone in a stone cold house  
There ain't no way you can keep love out

You can turn off the lights  
You can lock all the windows  
You can pretend you're not at home  
And turn off the phone  
So there's no way to get through  
Turn the radio down, down, down  
You can even leave town  
But it really doesn't matter what you do  
'Cause my love's gonna find you

(Gonna find you)  
Gonna find you, gonna find you  
(Gonna find you)  
Gonna find you, I'm gonna find you  
(Gonna find you)  
I'm gonna find you, I'm gonna find you

(Gonna find you)

Gonna find you, gonna find, I'm gonna find you

(Gonna find you)

Gonna find you, gonna find you
