

# Til I Loved You

Juice Newton

'Til I loved you  
Didn't know the meaning of the word  
I was only taking  
Giving nothing in return  
Now, my life was an empty page  
Less than an even trade

'Til I loved you  
I was fooling everybody but myself  
Just going through the motions  
Deep inside, I knew  
I needed to be touched  
I didn't know how much

'Til I loved you  
( 'Til I loved you)  
I didn't know what I was missing  
'Til I loved you  
You taught me that dreamers don't need wings to fly

'Til I loved you  
I never knew one word could mean so much  
But when you take me in your arms  
There's no doubt in my mind  
This is where I belong  
I was living my life all wrong

'Til I loved you  
( 'Til I loved you)  
I didn't know what I was missing  
'Til I loved you  
You taught me that dreamers don't need wings to fly

This is where I belong  
All of the tears are gone  
I was living my life all wrong

'Til I loved you
