

Trail Of Tears

Juice Newton

I've seen shadows, I've seen sun
I know what in world is not mine
I've seen lead, I've seen gold
I heard everything that I've been told
Moving back

Don't wanna spend my lifetime walking
Down a trail a tears
So stay back,
Don't wanna spend my lifetime walking
A trail a tears, trail of tears

Taking my stand, think its time
Tired of letting you play with my mind
Ones so bitter and ones so sweet
Think I'm gonna stand on my own two feet
I said I

Don't wanna spend my lifetime walking
Down a trail a tears
I said I
Don't wanna spend my lifetime walking
A trail a tears, trail of tears

Nobody who hit the right line
You barely notice unless there a blind and gone
Love is gone
Nobody wants to throw it away
Why bother? I happen to stay with is gone
True love has gone

I've seen shadows, I've seen sun
I've see know I've been wasting my time
Scared of you, scared of me
Scared of letting my future be

Don't wanna spend my lifetime walking
Down a trail a tears
So stay back,
Don't wanna spend my lifetime walking
A trail a tears, trail of tears

I said I, I said I

Don't wanna spend my lifetime walking
Down a trail a tears
So stay back,
Don't wanna spend my lifetime walking
A trail a tears, trail of tears
