

# You Make Me Want to Make You Mine

Juice Newton

You make me feel good  
You make real good love, good, good love  
You make me think about  
Never being without you, way too much

My heart just can't wait, I can't think straight  
I want to be with you all the time  
You make me want you  
You make me want to make you mine  
(You make me want to make you mine  
You make me want to make you mine, mine, mine)

Come on, baby, you make me want to make you mine  
You make me want to make you mine, mine, mine  
You make me want you  
You make me want to make you mine

You've got that something  
You've got me coming back for more, that's for sure  
You've got me under a spell  
Wondering if you're gonna tell me, say, hey baby, I'm yours

My heart just cannot wait, I can't think straight  
Just wanna be with you all the time  
You make me want you  
You make me want to make you mine  
(You make me want to make you mine  
You make me want to make you mine, mine, mine)

Come on, baby, you make me want to make you mine  
You make me want to make you mine, all mine  
You make me want you  
You make me want to make you mine

Each day that goes by, I want to be close by your side  
Each time I'm with you I find I just lose my mind  
I feel strange, I feel things like  
This must be love of some kind

My heart just will not wait, I'm gonna celebrate  
Just waiting for you to give me a sign  
You make me want you  
You make me want to make you mine  
(You make me want to make you mine  
You make me want to make you mine, mine, mine)

Just want to make you mine  
(You make me want to make you mine)  
Oh, mine  
(You make me want to make you)  
Mine, mine, mine

Oh, come on, baby  
(You make me want to make you mine)  
Won't you be mine, mine, all mine?  
(You make me want to make you mine, mine, mine)

I really want to make you mine  
(You make me want to make you mine)  
Won't you be mine, mine, all mine?  
(You make me want to make you mine, mine, mine)

I really want to make you mine  
(You make me want to make you mine)  
Won't you be mine, mine, all mine?  
(You make me want to make you mine, mine, mine)

I really want to make you mine  
(You make me want to make you mine)  
Won't you be mine?  
(You make me want to make you
