

## Lucky Charm

Juicy J

We wanna show our love, for all the trippy chicks out there!  
Rock with us!

She my good luck, she must be my lucky charm  
When she's not around, got me blowin her up like she a bomb  
I wrap her in my arm, every touchdown...  
She my lucky charm, she my lucky charm,  
I keep her by my side, cause she's my lucky charm.  
She my lucky charm, she my lucky charm,  
She ride when it's time to ride, she's my lucky charm!

Scream! I think I finally got me one, this time around  
I'm really feeling her, she might make me settle down!  
I had to make her move, I ain't talking furniture  
She's too bad, I might have to punish her!  
She short and ripped, remind me of a dynamite  
If looks can kill, somebody gonna die tonight.  
She like to get tipsy, plus she like to smoke, too  
We're looking for this type of chick, I can't believe that is true!  
She got her own money, so she don't need mine  
But I share it with her, cause what's hers is mine  
She don't do no argue, she don't do no fussy  
(Keep her!)  
I think I'm about to pop the question!  
Let's go!

She my good luck, she must be my lucky charm  
When she's not around, got me blowin her up like she a bomb  
I wrap her in my arm, every touchdown...  
She my lucky charm, she my lucky charm,  
I keep her by my side, cause she's my lucky charm.  
She my lucky charm, she my lucky charm,  
She ride when it's time to ride, she's my lucky charm!
