

# Alleluia

Julia Fordham

Alleluia  
Alleluia  
I made it through  
The day without you  
Just a day  
Another day  
But I'm on my way  
For a hushed sweet moment  
Everything made sense  
And all my misplaced judgements  
Were awash with innocence  
For a hushed sweet moment  
It felt like time stood still  
I only know I love you  
And that I always will  
By the shore  
Near the harbor  
A distant light  
Shines on the water  
Just a light  
Oh distant light  
Guide me through the night

An Alleluia chorus  
Rang out across the waves  
I have not gone the distance  
But I am on my way

An Alleluia chorus  
Rang out across the waves  
I have not gone the distance  
But I am on my way

Alleluia
