

## Missing Man

Julia Fordham

Yet another day slides into midnight  
From your camp there's not a single word  
Seemingly you have forgotten  
I'm still your girl  
People tell me I am strong  
I might have to prove them wrong  
As the cracks begin to show  
I'm trying to find the strength  
To let you go  
Missing man  
Hope turned out to be  
A dangerous lesson  
Faith a shallow river in disguise  
Running through my patient spirit  
Drowning my pride

Missing man  
Missing man  
Do you miss me  
Missing man  
Missing man  
Missing man  
Do you miss me  
Missing man
