

You were a captain of sorrow  
Falling behind all the birds of prey  
Go bomb my heart with your cannon  
Say what is captain supposed to say

Thinking out loud when together  
To wake our heads and to stay awake  
Till all the birds of the better  
Fall down at once with all the birds of the prey

I'm taller in your mirror  
Summers and falls mess with my face  
You watch out for me here  
You watch out, I don't lose my place

One day you'll just let it go  
You said to me and then showed me this trick  
I took my time to think about it  
Until the point it didn't make me sick

Since I met you what once was mine  
I couldn't have it not anymore  
All of my dresses, all my shoes  
They didn't fit me like before

I'm taller in your mirror  
Summers and falls mess with my face  
You watch out for me here  
You watch out I don't lose my place
