## I Wanna Get On Fire

## Julia Marcell

Start the car and lock the door You want more but you're not sure Oh I, I wanna get on fire

Is that all there is my friend? Sunsets get me down again I'm tired, I wanna get on fire

When I die west coast I'll see the most
If I die of thirst I'll be the cursed
If I die too late I'll miss my fate
So drive now

Letters in the kitchen sink Stars are drowning in my drink We're wired, I wanna get on fire

I remember what you said I'm forgetting fun I've had No I just wanna get on fire

When I die west coast I'll see the most
If I die of thirst I'll be the cursed
If I die too late I'll miss my fate
So drive
