

# I Want To Live Here

Julia Stone

I wanna live, inside of this home  
Don't worry about what they say  
When I'm gone  
I wanna live, inside of this home  
Don't worry about what they say  
When I'm not around

All of the stories, we were told back when  
They keep on telling them over and over again  
All of the stories, we think to be true  
They get better every year

I wanna live here, I wanna live here  
I wanna live here, I wanna live here  
I want to

However you see what's going on  
However you judge what is right, what is wrong  
There's nothing ahead of us, no, there is no path  
Everything's rolling along, nothing will last

I wanna live here, I wanna live here  
I wanna live here, I wanna live here  
I wanna live here, I wanna live here  
I wanna live here, I wanna live here  
I want to live
