

Justine

Julia Stone

I wanna go where we can go to the place where we are
Where I said I love him
And I gotta see if I can really breathe in a room with a view
Of the ones that are leavin'
And I wanna hear what you really feel when you fear
Oh, wake up in the darkness of the days
And I wanna see in the heart of me you're mine
Am I giving it all away

I wanna live with you in California
I wanna live with you in California
I wanna live with you in California
And we'll try to be kind

I wanna know what you should know, show me the light
Inside our, our truth
And I wanna see if you believe in me
Well I believe in you

I wanna live with you in California
I wanna live with you in California
I wanna live with you in California
And we'll try to be kind

I wanna live with you in California
I wanna live with you in California
I wanna live with you in California
And we'll try to be kind

And we'll try to be kind
And we'll try to be kind
And we'll try to be kind
And we'll try to be kind
