

# What`s Wrong With Me

Julia Stone

An expected light  
Why can't I love you?  
An unexpected delight  
Why can't I love you?

When I'm in your arms  
The world is beautiful  
When I'm in your arms  
I am beautiful

What's wrong with me?  
There is love all around  
What's wrong with me?  
I keep on letting you down

When I'm in your arms  
I am beautiful

What's wrong with me?  
There is love all around  
What's wrong with me?  
I keep on letting you down

An unexpected light  
Shines his way across the sea  
Just so I don't feel all alone  
An unexpected light he chose me  
Why can't I make this light my home?
