

Off to War...

Julian Casablancas

Our eyes see colors our mind made up

I wait for the light to shine

I wait for the light to shine

They're tugging on your pride to help them win

Yeah baby

I wait for the light to shine

I wait for the light to shine

When I look at you, I realize it was shining all along

I wait for light to shine

But someone else got to you

I wait for the light to shine

I wait for the light to shine
