

Sunspots

Julian Cope

Sunspots changing glares
Walking round with my very best friend
I've got a love song in my head
Strolling round with my very best friend

I look back but I don't see
Walking round with my very best friend
She looks good, fine to me
I'm in love with my very best friend

And eeeyooo it goes away
And eeeyooo it goes away

Sunspots changing gear
Driving round with my very best friend
I gotta love song in my head
Holding on to my very best friend

We look back but I can't see
Moving on with my very best friend
She looks good, fine to me
I'm in love with my very best friend

Eeeyooo it goes away
And eeeyooo it goes away

And eeeyooo it goes away
And eeeyooo it goes away
Way way way
