

## Sunspots

Julian Cope

Sunspots changing glares  
Walking round with my very best friend  
I've got a love song in my head  
Strolling round with my very best friend

I look back but I don't see  
Walking round with my very best friend  
She looks good, fine to me  
I'm in love with my very best friend

And eeeyooo it goes away  
And eeeyooo it goes away

Sunspots changing gear  
Driving round with my very best friend  
I gotta love song in my head  
Holding on to my very best friend

We look back but I can't see  
Moving on with my very best friend  
She looks good, fine to me  
I'm in love with my very best friend

Eeeyooo it goes away  
And eeeyooo it goes away

And eeeyooo it goes away  
And eeeyooo it goes away  
Way way way
