Let Me Be

Julian Lennon

```
You say you've got problems
I've got them myself
But you depend on me to help you out
Please let me be

Some people tell me you're movin' away
I've been assured that you're goin' to stay
So please let me be, please let me be

Some people tell me you're movin' away
I've been assured that you're goin' to stay
So please let me be, please let me be
```
