

## Stick Around

Julian Lennon

If you want to tell me something new  
I might stick around  
If you want to say that I trust you  
I might stick around

But if you disappear  
Then nothing will be clear, ah  
And if you go away  
Then where am I to stay, ah  
To stay, ah

If you say your love won't bring me down  
I might stick around  
If I kiss your lips just one more time  
I could lose control

But if you disappear  
Then nothing will be clear, ah  
And if you go away  
Then where am I to stay, ah  
To stay, ah

If I breathe your scent just one more time  
I could be controlled  
If you tempt me with your final sin  
I could be controlled

But if you disappear  
Then nothing will be clear, ah  
And if you go away  
Then where am I to stay, ah  
To stay, ah

But if you disappear  
Then nothing will be clear, ah  
And if you go away  
Then where am I to stay, ah  
To stay, ah

But if you disappear  
Then nothing will be clear, ah  
And if you go away  
Then where am I to stay, ah  
To stay, ah
