

You Get What You Want

Julian Lennon

I know what I want
Can't get it now
She knows what I want
Can't get it now
Well, she's packed her bag, she's home tonight
You better hope that she don't miss the flight

You know what I need
I need it now
She knows what I need
We'll share it now
Well, my baby's comin' home tonight
I better hope that she's gonna be all right

We know what we need
We'll get it now
We'll get together
And show ya how
Well, they say she's not the type for me
What do they know? I know me

I know what I want
Can't get it now
She knows what I want
Can't get it now
Well, she's packed her bag, she's home tonight
You better hope that she don't miss the flight

You know what I need
I need it now
She knows what I need
We'll share it now
Well, my baby's comin' home tonight
I better hope that she's gonna be all right

We know what we need
We'll get it now
We'll get together
And show ya how
Well, they say she's not the type for me
What do they know? I know me
Do do do do do. Do do do do do do do do.
