

All i know

Julian Marley

All I know
if you keep on taking water from the well
it will all dry up
and you have up having nothing for yourself.

All I know
if you keep on taking water from the well
it will all dry up
and you have up having nothing for yourself.

Your making a fool of yourself
thinking money can buy you health.
It's only a greedy heart
loves to finish but never start.
You use and abuse everyone around you
taking them for granted
feeling like the world is against you
so you take advantage.

So...All I know
if you keep on taking water from the well
it will all dry up
and you have up having nothing for yourself.

Your head is gone so far
almost forgotten who you are
and your never satisfied
you can't see cause your full of pride
and one day you'll be played
by your own works you will be played
one more thing don't say you never heard
play with fire you will get burned.

So...All I know
if you keep on taking water from the well
it will all dry up
and you have up having nothing for yourself.
All I know
if you keep on taking water from the well
it will all dry up
and you have up having nothing for yourself.
