

## Meaning Of The Blues

Julie London

Blue is just the color of the sea  
'Til my lover left me  
Blue is just a bluebird in a tree  
'Til he said forget me  
Blue always made me think of summer  
Cloudless summer skies so fresh and warm  
But now the blue I see is more like water  
When the skies blue clouds about to storm  
Blue is just the color of his eyes  
'Til he said goodbye love  
Blue is just written for first prize  
'Til he said don't cry love  
And blues were only taught soul less  
Fashioned for impassive afternoons  
But now I know to well I know  
To well I know the meaning of the blues  
Blue is just the color of his eyes
