

Do You Think About Me

Julie Reeves

Matchbooks and movie stubs
Cards and faded flowers in a box of love
My favorite photograph
Oh I used to tear it up
Just to tape it right back
All these souvenirs of me and you
Makes me wonder what you held onto

Do you think about me
Do you think about me
Do I ever go walkin' through your memory
Do you think about (think about)
Do you think about me

Warm nights and country drives
Do you ever stop and think about the first time
I guess somehow we both out grew
That innocent love we fell into
Every now and then the clock unwinds
And you go drifting across my mind

Yeah, Do you ever smile and think about what used to be yeah
Do you think about (think about)
Do think about me
Do you think about me (oh, oh)
Do you think about me (oh, oh)
Do I ever go walking through your memory
Do you think about me (Think about)
Do you think about me oh oh yeah
Do you think about me
