

It's About Time

Julie Reeves

Baby I see your trying to figure out
What this enigma they call love is all about
Oh no I'm no expert on the subject
That's for sure
But I'd love to study up
Maybe baby we should buddy up
Cause I'd love to study up with you

It's about time
It's about talkin'
It's about holding hands and walkin'
Up the street and down the beach
Takin' this as far as our hearts will reach
And dreamin' dreams just as big as we can
And did I mention holdin' hands
Well yes I did in the second line
So how 'bout puttin' yours in mine
It's about time
It's about time

Baby I hope that I'm not being too forward
Ain't gonna mention any of those forevermore words
Oh but ain't we had a couple close calls
On the telephone late at night
It's about more of those
Lettin' go and connectin' souls
And gettin' real close to you
