

Alive

Julie Roberts

Feels like forever
Since I was home
Days like Nebraska
Stretch on and on and on
The drone of the engine
The sound of the wheel
There's an aching inside me
I'm too tired to feel
I'm dying to see you
I'm dying to see you

A dashboard Jesus
And an Elvis keychain
I bought 'em at a truck stop
Waiting on the rain
Midnight radio
Graveyard shift
Music brings you back to me
And I feel such a lift
I'm dying to see you, see you

Cause you make me feel so alive
You make me feel so alive

I'm whispering your name
Down a long distance line
Just to make the connection
Between your heart and mine
Don't say nothing
Just let me hear you breathe
Like I'm right there beside you
Like you're right here beside me
I'm dying to see you, see you

Cause you make me feel so alive
You make me feel so alive
You make me feel so alive
You make me feel so alive

Half a world away this pace I'm in
I feel closer than we've ever been
I'm dying to see you
I'm dying to see you

Cause you make me feel so alive
You make me feel so alive
Feel so alive
You make me feel so alive

Feels like forever
Since I was home
Days like Nebraska
Stretch on and on and on
