## **Good Wine And Bad Decisions**

**Julie Roberts** 

It don't matter what dress I put on We both know it won't stay on for long And these heels all they're good for Is walking through your door and laying on your bedroom floor

Good wine and bad decisions A little lovin' never hurt no one Good wine and bad decisions I'll be gone when the morning comes

Ain't hurt nobody, got no one at home Sometimes a girl just don't like to be alone Two old flames burning bright, oh it sure feels right If only for one night

Good wine and bad decisions A little lovin' never hurt no one Good wine and bad decisions I'll be gone when the morning comes

Good wine and bad decisions A little lovin' never hurt no one Good wine and bad decisions I'll be gone when the morning comes Yeah, I'll be gone when the morning comes
