

## Keep Me Up All Night

Julie Roberts

Be my hot pot of coffee, baby,  
Keep me up all night  
A full moon through my window shining  
A little too bright  
Baby, remember what it's like  
Keep me up all night

Be my alley dog barking at the breeze  
That won't let me sleep  
Sometimes a lack of shut eye  
Is just what a body needs  
Baby remember what it's like  
Keep me up all night

Let's Outrun the sandman  
Forget about the time  
Cast that old spell on me  
Just by looking at my eyes  
We'll light a little fire  
And watch the sparks fly  
We may be a little sleepy  
Come the sunrise  
Oh, remember what it's like  
Keep me up all night

Be my summer church tent revival  
Lead me back to the light  
Let the spirit move us, Hallelujah  
When we get it right  
I swear by tomorrow morning, I won't mind  
Keep me up all night

Let's Outrun the sandman  
Forget about the time  
Cast that old spell on me  
Just by looking at my eyes  
We'll light a little fire  
And watch the sparks fly  
We may be a little sleepy  
Come the sunrise  
Oh, remember what it's like  
Keep me up all night
