NASCAR Party

Julie Roberts

It's a NASCAR party
It's a NASCAR party

I revved up, I can't sleep I'm finally here it's NASCAR week My man, he qualified He's right there at the front of the line When those wheels start spinning 'round There's nothing like that sound

Drivers line 'em up and start your engines Can't you feel the rhythm as the crowd goes wild It's a NASCAR party, come on and get rowdy Everybody's waiting for the flag to come down.

Y'all know what I mean You gotta love the sweet smell of gasoline A cool drink, the hot sun You and I we're gonna have some fun From sunrise till the sun is gone We'll be singing our song

Drivers line 'em up and start your engines Can't you feel the rhythm as the crowd goes wild It's a NASCAR party, come on and get rowdy Everybody's waiting for the flag to come down.

It's a NASCAR party

From Daytona to Texas, Atlanta, Bristol and Sonoma From Charlotte to Vegas Everywhere this party takes us

It's a NASCAR party
It's a NASCAR party

Drivers line 'em up and start your engines Can't you feel the rhythm as the crowd goes wild It's a NASCAR party, come on and get rowdy Everybody's waiting for the flag to come down.

Drivers now it's time to start your engines Can't you feel the rhythm as the crowd goes wild It's a NASCAR party, come on and get rowdy Everybody's waiting for the flag to come down.
