

Old Habit

Julie Roberts

My phone rings and it's you
I pick up, I always do
And I know what you're gonna do
How you been? it's been so long
Then you'll go on and on and on
I'm just an old habit you can't break

Like alcohol on your breath
Like a glowing cigarette
You ain't done with me yet
You can't stay away
Like all the lies that you said
Like all those nights in my bed
I'm just an old habit you can't break

It won't be long until you leave
And I'll fight back that part of me
That wants to beg you to stay
Are we lovers? Are we friends?
I think it's finally sinkin' in
I'm just an old habit you can't break

Like alcohol on your breath
Like a glowing cigarette
You ain't done with me yet
You can't stay away
Like all the lies that you said
Like all those nights in my bed
I'm just an old habit you can't break
