Wrong About You

Julie Roberts

```
I wanted, I wanted to be wrong about you
When I saw the signs I shut my eyes
Oh, what a fool, I wanted, I wanted to be wrong about you
Wish I was surprised, but your lies
Ain't nothin' new

If you can't be good
Can't you be good
At hiding all the stupid things you do
I wanted, I wanted to be wrong about you

Yeah, I wanted, I wanted to be wrong about you
You got me down, got me down
Got me down so low
I just got to let you go
```
