

# You Ain't Down Home

Julie Roberts

You know all the right people  
You wear all the right clothes  
You got a snappy little sports car all your own  
You got the cool conversation on your high tech telephone  
But you got one little problem, baby  
You ain't down him  
You ain't down home where the people got their feet on the ground  
Down home where there's plenty of love to go 'round  
You got the cool conversation on your high tech telephone  
But you got one little problem, baby  
You ain't down home  
You got a brand new Jacuzzi  
All your credit cards are gold  
There ain't a high class place in town where you ain't known  
You make it all look impressive, yeah you put on quite a show  
But you got one little problem, baby  
You ain't down home  
You make it all look so impressive, yeah when you're showin' all your dough  
But you got one little problem, baby  
You ain't down home
