

## Futura (DTA Mix)

Julien-K

I wanna know your name  
Feel your touch  
Your eyes, your eyes are burning  
I want too much

Nothing to do

I can hear this thing  
It wants so much  
To feel your pain  
To feel your touch

And the siren sound takes control  
There's no one left to save your soul  
There's no one left to take you into the night

And the fog rolls through  
A blue midnight  
With nothing to do  
It'll be alright

Feel your pain  
Feel your touch
