

Mystified

Juliet Simms

I hear you knocking on the other side
You got me mystified
You got me mystified

I hear you calling but I've been denied
You make me lose my mind, you make me lose my mind

I can't find the power to survive
I've been looking my whole life

Now you got me looking through a crystal ball
I see you coming away
When I walk on fire it don't hurt at all
But I get burned just the same

You got me dancing with the devil's pride
You got me mystified, you got me mystified

I see the truth you hide inside the lies
You got me mesmerised, you got me mesmerised

I can't find the power to survive
I've been looking my whole life

Now you got me looking through a crystal ball
I see you coming away
When I walk on fire it don't hurt at all
But I get burned just the same

Oh
Break it to me slow
Before I lose control
I have to keep on holding on and I
I'm asking you to stay
To give me one more day
And forget the past we made

Now you got me looking through a crystal ball
I see you coming away
When I walk on fire it don't hurt at all
But I get burned just the same

Now you got me looking through a crystal ball
I see you coming away
When I walk on fire it don't hurt at all
But I get burned just the same
