

To Love Is To Die

Juliet Simms

The rain begins to fall
Standing on the edge
This moment'll make it last
Eternal love is dead
One more breath of life
In a house of dust, I cry
One last fall to grace
You're my legend, you're my faith
I'll cross my heart
I'll hope to die
Dancing on my grave tonight
My eternal vow
This love will never die

To love is to die
I'm never gonna change my mind
I just wanna live forever
You know we have to pay the price
To love is to die
So lay me on a bed of roses
This is the path we've chosen
Sweetest sacrifice
To love is to die

I reach to touch the flame
I feel the fire, there's no pain
The way our love will stay
While the years wither and fade
We've crossed our hearts, we hoped to die
We're dancing on our graves tonight
Our eternal vow, this love will never die

To love is to die
I'm never gonna change my mind
I just wanna live forever
You know we have to pay the price
To love is to die
So lay me on a bed of roses
This is the path we've chosen
Sweetest sacrifice

Someone told me love was madness
To just forget it, and it's not worth it oh
If to live is to love and to love is to die
I'm a dead woman walking
I'm a dead woman walking

I'm never gonna change my mind
I just wanna live forever
You know we have to pay the price
To love is to die
So lay me on a bed of roses
This is the path we've chosen
Sweetest sacrifice

To love is to die
I'm never gonna change my mind

I just wanna live forever
You know we have to pay the price
To love is to die
So lay me on a bed of roses
This is the path we've chosen
Sweetest sacrifice
To love is to die
