I gotta let him know
Takin' a walk, it's late at night
You've got me feeling right
I can't concentrate tell me what is happening

Got me feeling high
I'm sweating down my spine
A weakness in my thighs
So I got to let you know that

Gotta let you know that
You put a spell all over me
Gotta let you know that
You are here I cannot breathe

Gotta let you know that
I am fallin' to my knees
Gotta let you know that
There's something so special about you, it makes me scream

So I'm in love
Is it a crime to be in love?
To little try
So happy I found my perfect guy

He's my fantasy
Full of personality
He's everything to me
So I gotta let you know that

Gotta let you know that
You put a spell all over me
Gotta let you know that
You are here I cannot breathe

Gotta let you know that
I am fallin' to my knees
Gotta let you know that
There's something so special about you, it makes me scream
Scream, scream, scream

There's something so special about you it makes me scream
There's something so special about you it makes me scream

Gotta let you know that
Gotta let you know that
Gotta let you know that
Gotta let you know that

Gotta let you know that
You put a spell all over me
Gotta let you know that
You are here I cannot breathe

Gotta let you know that
I am fallin' to my knees
Gotta let you know that
There's something so special about you it makes me scream
