

# I Travelled

Jully Black

I traveled the long road just so you would listen  
I traveled the long road just me and my intuition  
No body seemed to understand just why I left with the clothes on  
by back  
They asked why such a drastic change  
I just know that my decision will put me on track

That is why I traveled the long road  
So I can smile again feel good inside again maybe even laugh again  
I am going to travel

They closed so many doors on me  
So I climbed right in the window  
'Cause as long as I can breathe I see that my spirit is protecting me  
Oh they say that good things come to those who have the patience to remain the same  
Don't sacrifice your everything just to be some temporary vision that's gonna change

You've gotta travel the long road  
So you can smile again feel good inside again maybe even laugh again  
You have got to travel

Just let your heart carry you through cause it knows what you are trying to do  
And love is such a beautiful truth it gives strength to make it through  
When you walking down the road of life keep your head up and get ready to run  
'Cause you probably have to feel some pain  
But it's a sacrifice a chosen few will have to make

You've gotta travel  
They say that good things come to those who have the patience to remain the same  
Don't you sacrifice your everything just to be some temporary vision that's gonna change

You've gotta travel the long road  
So you can smile again  
Feel good inside again maybe even laugh again  
You've gotta travel the long road (ooh)  
You've gotta travel  
Keep your head up to the sky  
When the day is done you know you have gotta travel

Get on your knees and pray  
Travel the long road.
