

Having You Around

July Talk

Your running in the rain
Your heart doused in flames
Your song come along
Spread yourself thin
Your hair is on fire
You can't get much higher
Freight train with your name
Come on in

Don't you think it's time to get use to somebody (I don't mind)

Don't you think it's time to get use to having me around (I don't mind)

Having you around

Everyone's been young and
Those who love a lot of fun
But check it out the door
Write it on the floor
Your safe within these walls
You've had your ups and downs the shotgun bullets through highw
ay town
But now your here, never fear
And I'll never fall

Having you around
Having you around
Having you around
Having you around
Having you around
Having you around
Having you around
Having you around
