July Talk

I'm a stolen car
Your favorite deadbeat bar
Your Friday dirty drug, I keep you stuck

Go on and run me down
Turn your face around
Better left unsaid inside your head

Favorite drug, someone
Take advantage of
Cold water, you need cold water
You need someone, someone

Well you're nearly there
So cut your hair
You'll be a women if you try, keep yourself satisfied

Favorite drug, someone
Take advantage of
Favorite drug, someone
Take advantage of
Cold water, you need cold water
You need someone, someone
