

## Midnight

Jump, Little Children

In here it's always midnight  
In here it's always dark  
In here there's always a shadow cast  
By these fluorescent lights

In here forever is a dying myth  
In here forever is a lie  
In here forever is a space between  
Your every breath  
Midnight

It's never dark enough  
To hide us from tomorrow  
Never dark enough  
To keep us in shadow  
In here  
Midnight is always

In here I still here you whispering  
In here I hear your fragile voice  
In here I hear your laughter floating down  
Like paper rain  
Midnight

It's never dark enough  
To hide us from tomorrow  
Never dark enough  
To keep us in shadow  
In here, midnight

Midnight  
It's never dark enough  
To hide us from tomorrow  
Never dark enough  
To keep us in shadow  
In here  
In here  
In here  
It's always midnight
