

## Angel In My Heart

Jump5

I heard a whisper that touched deep inside my soul  
Like some familiar melody  
A hidden chapter from a story left untold  
I gotta feeling, I could believe in

There is an angel in my heart  
Feels like I'm guided by a candle in the dark  
Its taken all this time  
To finally find out what I could never see  
An angel in my heart  
You were there 4 me  
Now there is no doubt that there will always be  
An angel in my heart

You were the friend, You were the one I could confide in  
You gave me strength that I could never find  
Deep emotions that's I've always been denying  
I believe in, its so close now, its You that  
I'm feeling

Finally found what I been searching for  
(all my life)  
It was right before my eyes  
Oh u are my angel  
I know You'll always be there  
You are my one and only angel  
To finally found find what I could never see  
(You were there for me)  
Now there is no doubt that there will always be  
An angel in my heart
