

Fly-y, fly-y,  
Fly-y, fly-y, fly

It's like I woke up and my day belongs  
And nothing goes right hall of fame  
It's like a simple song and  
I can't seem to get it straight

But I'm in the world premier  
And I just can't get through the lines  
And everything I touch goes wrong,  
No matter what I try

Fly away above the clouds up in the sky  
Oh why, oh why  
So I don't worry 'bout the little things in life  
'Cause it's my time to fly  
And I know they cannot hold me down  
Fly-y, fly-y,  
'Cause they cannot hold me down,  
Fly-y, fly-y, fly-y

Some times are crazy in the world  
It's ever weirder than it sounds  
The world is my missed time  
Things are easier I've found

All the world's stage  
I've just got the starring role  
The mountain mass in front of me  
Seems like a little stone

Fly away above the clouds up in the sky  
Oh why, oh why  
So I don't worry 'bout the little things in life  
Cause it's my time to fly tonight

I know sometimes it's hard to walk  
When being knocked around

But circumstances, state of mind  
Don't live life on the ground

I just want to  
Fly away above the clouds up in the sky  
Oh why, oh why  
So I don't worry 'bout the little things in life  
Cause it's my time to fly tonight

It's my time, my time to fly

Fly away above the clouds up in the sky  
Oh why, oh why  
So I don't worry 'bout the little things in life  
Cause it's my time to fly tonight and  
I know they cannot hold me down  
Fly-y, fly-y,

'Cause they cannot hold me down,  
Fly-y, fly-y, fly-y
