

Forever In My Heart

Jump5

You are the hero, I'll never be
But don't You know I wanna be like You
And I'm so glad You're a part of me
I'll go with You wherever You want to

You came to save me from myself
You took the blame (shame)
You love me like nobody else
So I say...

Now and forever
I'm with You
Wherever You lead me, I'll go too
We'll be together
I know it's true
Now I know that You are
You are forever in my heart

And when I think about all You've done
You know it's hard for me to believe it
And when I see all the love You give
I can't deny, I gladly receive it

Who can do everything that you've done
Who can love in the way that you love
You are forever in my heart
