

I may never get it right
You might find I fall away
I can't live the perfect life
Every hour everyday
I may stumble, You may see
A side you never knew of me
I don't want to let
You down
But I cannot make the guarantee
That I could love you like
You Love me 'til the end of time
It drives me crazy thinking why
You want me by
Your side

I know that I'm not dreaming
Is my mind playing tricks on me
No,
Your love won't let me believe in virtual reality
It's beyond imagination,
Your love changes everything
I know in my heart this ain't no virtual reality

I may never understand
Lord, my mind is so amazed
I can't really comprehend
I'm entranced, blown away
But what I feel inside my heart
Isn't always what I see
Funny how your faith can change
Your virtual reality
Seems too easy to believe
You'd love me as I am
But this reality will keep my heart here in Your
hands
