

# No Swallerin' Place

June Carter Cash

I've got a song, it's a pretty good song  
Only one thing wrong with a pretty good song  
'Cause a pretty good song goes a long  
And a long and a long and a long and a long  
And a long and a long and a long and a long  
'Til it gets me red in the face

'Cause it ain't got no swallerin' place

I can finish a sack of cracker jacks in 15 seconds flat  
And still keep the conversation running fair  
I can kiss my darling sweetheart and hold it half an hour  
And I ain't half dead when I come up for air

But darn, this song it's a pretty good song  
Only one thing wrong with a pretty good song  
'Cause a pretty good song goes a long and a long  
And a long and a long and a long and a long  
And a long and a long and a long and a long  
Like a doggone marathon race

'Cause it ain't got no swallerin' place

Here's that tune it's a pretty good tune  
But I just ain't built like a rubber balloon  
It's a pretty good tune and a croon  
And a croon and a croon and a croon  
And a croon and a croon and a croon  
And croon and croon  
And I can't keep up with the pace

'Cause it ain't got no swallerin' place

Now I can finish a sack of cracker jacks in 15 seconds flat  
And still keep the conversation running fair  
When I kiss my loving sweetheart, I can hold it half an hour  
And I ain't half dead when I come up for air

But darn, this song it's a pretty good song  
Only one thing wrong with a pretty good song  
'Cause a pretty good song goes a long and a long  
And a long and a long and a long and a long  
And a long and a long and a long and a long  
Like a doggone marathon race

'Cause it ain't got no swallerin' place
