

No Surrender

Jungle Rot

Struggle to break the chains
Don't let yourself surrender
In spite they say your name
Our hate is their splendor
Are you as weak as they say?
Only time will give they answer
Take life day by day
For I am my own master
Rise up and fight to take control of your life
What you see
This could be for the key...
Is you..
Struggle to break the chains
Don't let yourself surrender
Our strength is in our numbers
We will take them over
Of force will not encumber
Only we have the power.
