

Ready for War

Jungle Rot

An illusion of reality, look into my eyes
All your lies guard your life, and now you're gonna die!
This pain can not be caged, my pride's been raped
Disgusting me with shame, your blood's now mine to claim

Try to hideout from the truth, you will not show your face
Victory will soon be mine, you will be in your grave
This pain can not be caged, your blood will stain
One mistake gave me this pain, and now you'll fucking die

Ready for war!
FIGHT FIGHT!

Show no fear, stand and fight
Sirens warp my mind
Hide in fear from your greed
I will take your life
Innocent? You're guilty!
Soon I will uncover the truth
And you'll be put to death
There's no need for you

It is time for you to die
No more greed, no more lies

Ready for war!
