

Sneak A Picture

Junior Boys

Game over,
It's a new owner
Punches chipping off your pride
Move slower,
You're one day older,
Find the darkest side of the night
Sneak a picture
Above my shoulder
Don't make a sudden move
You'll spoil the light
Oh no

Once, double stride
Roll again till it's right
Twice, sudden start
Move around, find the part

Pan forward,
And frame the border
Clean up every matching line
She looks perfect
In every colour
Find the one that's not too bright
Sneak a picture
Of a cheap performer
Don't let it go too far
'Cause it's not the art
Oh no

Once, double stride
Roll again till it's right
Twice, sudden start
Move around, find the part

Once, double stride
Roll again till it's right
Twice, sudden start
Move around, find the part
Sleep it off, where you are
Once, know your smile
Add some more, on your bedroom pile
Twice, trick your heart
Show the lens who you think you are

Sneak the picture
Catch empty corner
And dress it with a set
Of your best regrets
That go, than go

Till it's right, once double stride,
Fin de the part, twice sudden start,
Deep inside, once double stride,

Where you are, twice sudden star,
Bedrom pile, once know your smile
Who you are, twice trick your heart...
